At the outset, the principal welcomed all the members to the meeting, and the following points were discussed during the meeting.

During the meeting, the complaint of an unknown student who lives in the Boys Hostel that he has been harassed by senior students in the Hostel in connection with fund collection for the college fest was discussed.

After a detailed discussion, Dr. T.N. Raju was informed to submit the Sanskruti Student Coordinators to the Hostel Warden to identify and solve the problem.

The meeting was concluded with a vote of thanks to the chair.

3. It may be noted that only students who graduate during the validity period of accreditation, will be deemed to have graduated with an NBA accredited degree.

4. The programs have been granted accreditation for 3 years. Dr. Ambedkar Institute of Technology, Outer Ring Road, Near Jnana Bharathi Campus, Mallathahalli, Bangalore-560056, Karnataka should submit the Compliance Report at least six months before the expiry of validity of accreditation mentioned above so as to be eligible for consideration by the concerned Committee in NBA for further processing of the accreditation status.

5. The accreditation status awarded to the programs as indicated in the above table does not imply that the accreditation has been granted to Dr. Ambedkar Institute of Technology, Outer Ring Road, Near Jnana Bharathi Campus, Mallathahalli, Bangalore-560056, Karnataka as a whole. As such the Institution should nowhere along with its name including on its letterhead etc. write that it is accredited by NBA because it is program accreditation and not institution accreditation. If such an instance comes to NBA’s notice, this will be viewed seriously. Complete name of the program(s) accredited, level of program(s) and the period of validity of accreditation, as well as the Academic Year from which the accreditation is effective should be mentioned unambiguously whenever and wherever it is required to indicate the status of accreditation by NBA.

25. Institution-Industry Cell
Industry Institute Cell

The Industry Institute Cell provides a platform for both the students as well as faculty members to be aware of industry expectations of skill sets required for students and faculty to meet the global challenges. The cell enables students to be aware of the lacunae in their skills and provides an opportunity to upgrade them. It also enables Faculty to be aware of industry expectations & train students to meet these expectations.

The Institutions stand to gain by way of up to date curricula, source of revenue generation by consultancy and R & D, source of manpower for employment, societal relevance, and most importantly acquisition of brand name/equity.

Industry stands to gain by way of availability of employable manpower pool, and increased productivity.

Faculty stand to gain by way of exposure to latest industry practices for more effective teaching learning processes.

Students stand to gain by way of hands-on training, reduction of learning curve in industrial practices; and, society stands to gain by way of improved quality of goods and services.

Objectives of Industry Institute Cell

- Reduce the gap between industry expectations (practice) and academic offerings (theory) by direct involvement of industry.
- Conduct Industrial Training and Industrial Visits for the students and faculty.
- To give industrial exposure to Faculty members and students, thus enabling them to tune their knowledge to cope with the industrial culture.
- Organize Workshops on trending technologies by experts in the field.
- To share the experience and expertise between the Industry and the Institution for mutual benefits.

IQAC is established at Dr. Ambedkar Institute of Technology in 2016 and is promoting measures for Institutional functioning towards quality enhancement by developing a system for consistent improvement in the overall performance of the Institute.

The major roles of the IQAC are: Achieve compliance relating to the standards of Technical Education which are defined from time to time by supervisory authorities like AICTE, UGC, VTU, etc. Development of the strategies to achieve better ranking in NIRF and ARIIA and Institution has achieved 163 ranks in NIRF during 2019, 200-300 band during 2020 & 2021, Band-Performer in ARIIA 2021 Development of the strategies for the process of accreditation conducted by the National Board of Accreditation (NBA) and National Assessment and Accreditation Council (NAAC) etc.

Expansion of academic programs as per the directions of Governing Body (GB) Inform Principal on new development in Technology, Teaching-Learning Processes, new programs Development of a strategic plan for the Institution Self-appraisal system for teaching staff which includes their achievements, feedback, Academic, R&D, publications, etc. Significant Contribution towards improving curriculum enrichment, academic excellence, teaching and learning process, evaluation methods and research atmosphere in the institution

Apart from these two more practices adopted by IQAC are:

1. Academic Audits The academic audit provides an opportunity for a regular strategic overview of the teaching-learning process. The audit is conducted at the faculty level and department level and at institute level. The first level of Academic audit is conducted for faculty members of all departments by the Internal Academic Audit Committee constituted by the Dean (Academic) comprising Senior faculty members of various departments. The second level of Academic Audit is conducted for all the departments & administrative Sections by all the Deans and Internal IQAC members. The third level of Academic Audit is conducted by External expert members to review the Institute.

2. IQAC Lecture Series It was resolved in the College Council (CC) meeting to conduct the IQAC lecturer series for all faculty members on the last Friday of every month from 3:30 PM onwards from April 2021 onwards. In view of this six lecture series were organized during April, May, June, July, August, & October 2022 by the Principal, all Deans & IQAC Coordinators respectively.
27. Institute Innovation Council (IIC)
INSTITUTION INNOVATION COUNCIL

The AICTE is a statutory body responsible for the planning and coordination of technical education and management of technical institutions in India. The Institution Innovation Council initiative is aimed at fostering a culture of innovation and entrepreneurship among students and faculty members in technical institutions across the country.

The key objectives of an Institution Innovation Council are:

- To promote innovation and startup culture in the institution.
- To nurture the creative talents of students and faculty members.
- To encourage interdisciplinary collaboration for innovative solutions.
- To foster an entrepreneurial mindset and support potential startups.

Institution Innovation Council (IIC) organize various activities, workshops, hackathons, competitions, and guest lectures related to innovation, entrepreneurship, and emerging technologies. They provide a platform for students to showcase their innovative ideas, collaborate with peers, and receive guidance from mentors and industry experts.

These councils play a crucial role in empowering students to think beyond the curriculum and explore innovative solutions to real-world challenges, thereby contributing to the growth and development of India's innovation ecosystem.

Indeed, the Institution Innovation Council (IIC) plays a significant role in bridging the gap between industry and academia. The IIC initiative, as mentioned earlier, is an effort to foster a culture of innovation and entrepreneurship in technical institutions. By encouraging collaboration and interaction between students, faculty, and the industry, IICs aim to create a mutually beneficial ecosystem that enhances the learning experience and supports industrial needs.

Here are some ways IICs contribute to bridging the gap:

**Industry-Academia Collaboration:** IICs facilitate regular interactions with industry representatives, professionals, and experts. These interactions can take the form of workshops, seminars, guest lectures, and industrial visits. Industry experts share their experiences and insights with students and faculty, providing them with real-world perspectives and the latest trends in technology and business.

**Internships and Projects:** IICs help students secure internships and industry-oriented projects, allowing them to gain practical exposure and apply their theoretical knowledge to real-world challenges. This interaction with industry projects also helps in fostering problem-solving skills and developing a better understanding of industry requirements.

**Hackathons and Competitions:** IICs organize hackathons, innovation challenges, and competitions in collaboration with industry partners. These events offer students an opportunity to work on real industry problems, demonstrate their skills, and potentially catch the attention of recruiters.
**Industry Mentorship:** IICs often provide mentoring programs where industry experts mentor students on specific projects or startups. This mentorship helps students gain valuable guidance, industry connections, and insights into the professional world.

**Entrepreneurship Support:** IICs actively promote entrepreneurship among students and faculty. They offer support in the form of incubation centres, startup funding, and access to a network of investors and mentors.

**Skill Development:** IICs focus on developing industry-relevant skills among students through training sessions, workshops, and certifications. This ensures that graduates are better equipped to meet industry expectations and demands.

By implementing these strategies and initiatives, IICs create a bridge that connects academia and industry, fostering a symbiotic relationship between the two. This collaboration benefits both students and industries, leading to a more skilled and industry-ready workforce and innovative solutions that can positively impact the industrial sector.
28. Language Laboratory (for institutions having Diploma and Degree Programs)
The Language was begun in the institution in the year 2006 under the financial help from TEQIP -I. 28 laptops had been provided where the software was installed. It has been used to train students in grammar, vocabulary and LSRW skills.

The software was procured from Young India films contains:

1. Tense Buster 2001….break through grammar barrier
2. The sky pronunciation suite…. An interactive pronunciation
3. The report writer…. Business reports….a comprehensive tool
4. Business writing …. Emails, reports letters etc
5. Study Skills Success… LSRW skills
6. Active Reading….. learning to love reading
7. Lets do Business… presentations
8. Vocabulary Builder…..

   A) Spanish
   B) Mandarin
   C) German
   D) French
29. Road Suitable for use by Motor Vehicles – motorized roads
30. Provision for Vehicle Parking
31. Internship
Dr. Ambedkar Institute of Technology

Internship

Industry internship for the students has been made mandatory. UG and PG students undergo internships in reputed industries related to their field of study. Many students from IT branches are selected for internships with stipends. Internships are helpful in better understanding the courses learned, exposure to the working environment at industries, identifying & carrying out projects, and solving real-time problems.

Our students visit industries to upgrade their skills by doing summer internships & research projects, which will enhance their career prospects & opportunities for higher studies. The internship is mandatory for all students to understand the working culture in industries and organizations. Online classes are conducted during the pandemic period using various ICT facilities such as Google Classroom, Google meet, WebEx, Microsoft teams, smart boards and a Learning management system using Moodle.

Students are encouraged to take interdisciplinary and multidisciplinary courses. Internships, Project Based Learning & mini and major project works are part of the curriculum. AICTE Activity points programme was introduced to imbibe social skills in the students through integrated rural development courses. Online learning is promoted through credit-based NPTEL/SWAYAM for PG courses. The Institution has adopted NEP 2020 from the Academic Year 2021-22 onwards.

The companies providing Internship are included in SSR 1.3.4
32. Implementation of PARAKH
The National Education Policy 2020 envisages the establishment of a National Measurement Centre, PARAKH (Performance Assessment, Review, and Analysis of Knowledge for Holistic Development), as a standard-setting body to achieve the objectives of establishing norms, benchmarks, and recommendations for student assessment. In a bid to evaluate technical education students of India and make them industry-ready in line with the global standards, the AICTE launched the first-of-its-kind multi-lingual student learning assessment portal ‘PARAK.

AICTE - SLA (PARAKH) is to motivate bridging the gap between academics and industry by providing a platform for self-assessment of knowledge and 21st century skill capabilities in students and faculty members to ensure global competitiveness.

Dr. AIT as a leading technical education institute, we have participated in the SLA, total 1664 students are registered, out of which 414 students are taken up the assessment. We stood 116 position in out of 2121 institution.
