### **➤ About INDOOR SPORTS COMPLEX at Dr. AIT**

The newly constructed Indoor Sports Complex at Dr. AIT Campus is a Pre-Engineered-Building (PEB), it is a construction structure when is designed and fabricated off-site and then assembled on site. This building has RCC sub structure and customized steel super structure. The key advantage of PEB structure is faster in construction time, cost efficient, flexible in design and quality controlled in factory atmosphere. PEB structures are more recommended than RCC structures for its larger clear span with good aesthetic appearance.

This building is having length 53mt (175ft), width 28mt (92ft), built up area 1500smt (16000sft), ridge height 12mt (40ft) with either side mezzanine floor of 400smt (4300sft) accommodating multiple indoor sports activities such as Shuttle Badminton, Basketball, Volleyball, Table Tennis, Carrom and Chess. It is accommodates Gym with locker and shower facility.

This building is having mezzanine floor which is constructed using metal decking, is a combination of steel sheet with concrete, steel profile sheet at bottom and concrete at top with nominal HYSD bars. No centering and de-shuttering work is required. This building Roof and sides are covered with PUFF

sheet which gives good heat insulation and acoustic absorption. The total cost of the building is around 3.5 Crores.

This Indoor Sports complex is situated very next to the outdoor sports ground, nearer to the boys and girls hostel which will very convenient for sports persons to utilize this facility. This building can also be used for Multi-Purpose activities. This project was monitored and executed by construction division head Er. G.P Manjunath with structural design by Vinaxo structures consulting services headed by Dr. Mahadeva Achar, construction by G.K Industries headed by Sri. C.B Patil.
