About the Organization

Dr. Ambedkar Institute of Technology was started in the year 1980 by Late Sri M. H. Jayaprakash Narayan under the auspices of Panchajanya Vidya Peetha Welfare Trust. The institute is aided by Government of Karnataka, affiliated to VTU and is having Autonomous status. Apart from 11 disciplines of engineering, the institute also offers 11 PG programs including MCA, MBA and M. Tech. Programs in various specializations. The institute has been accredited by NAAC with A Grade, and has received funds under TEQIP I, TEQIP II and TEQIP III schemes and is currently mentoring Institute of Engineering and Technology, Ayodhya. All eligible programs are accredited by NBA. The Institution is having well qualified faculty members involved in various research, testing and consultancy activities and carrying out technical works of practical importance.

About the Department

The department of Electronics & Telecommunication Engineering was established in the year 1991 formerly known as Telecommunication Engineering. The department offers UG program in Electronics & Telecommunication Engineering, M Tech in Digital Communication & Networking, M Sc (Engineering) and Ph.D programs by research. The UG program is under autonomous scheme under Visvesvaraya Technological University since 2010 and PG program M. Tech in Digital Communication and Networking obtained autonomous status since 2016. The department Research & Development centre is recognized by Visvesvaraya Technological University. Currently, the department is working on AICTE and VGST sponsored projects. Student are working on KSCST funded projects. The department is having well qualified, experienced faculty members. 8 out of 13 are PhD degree holders. The department laboratories are equipped with the state-of-the-art equipments and software tools. The UG has got accredited by NBA from 2016 to 2019 and extended from 2019 to 2022. The PG has got accredited by NBA from 2017 to 2019.

Who can register:

Details of the Course:

The rapid speed of digital growth has led to a spread of vulnerable infrastructure and its unauthorized exploitation. This webinar aims at developing and understanding of modern cyber attacks its mitigations. It covers various techniques used to analyze and detect vulnerable workloads using vulnerability scanning, deep packet inspection and compliance frameworks. It also focuses how containerizing workloads (using Docker) results in mitigating cyber attacks.

Expected Outcome:

The webinar is intended to provide an exposure to various mitigation techniques in web security.

To train the participants about video and image processing and geo-spatial technology.

Details of the Course:

Satellites launched by ISRO send lot of images in the field of Meteorology, forestry, weather forecasting, identification of minerals and border surveillance. In order to sort out clear pictures among them is a big problem, since the resolution identification is restricted. In this regard, we train the faculty members in the above area using mathematical and statistical techniques. Hands on awareness to the faculty will be given by subject experts.

Expected Outcome:

Faculty trained in this STTP can guide the UG and PG students for project work under the umbrella of ISRO. Quantitative and Qualitative analysis of satellite images and video can hands on experimented in our lab.

The Institution is having well qualified faculty members involved in various research, testing and consultancy activities and carrying out technical works of practical importance.

About the Department

The department of Telecommunication Engineering was established in the year 1991. The department offers UG program in Telecommunication & Engineering, M Tech in Digital Communication & Networking, M Sc (Engineering) and Ph.D programs by research. The UG program is under autonomous scheme under Visvesvaraya Technological University since 2010 and PG program M. Tech in Digital Communication and Networking obtained autonomous status since 2016. The department Research & Development centre is recognised by Visvesvaraya Technological University. Currently, the department is working on AICTE and VGST sponsored projects. The department is having well qualified, experienced and doctorate faculty members. The department laboratories are equipped with the state of the art equipments and software tools. The UG has got accredited by NBA from 2016 to 2019 and extended from 2019 to 2022. The PG has got accredited by NBA from 2017 to 2019 and is expecting NBA visit for one more year extension.

Who can register:

Faculty from AICTE approved Institutes, research scholars, PG Scholars.. participants from Government and Industry and staff of host institutions.

Digital certificate will be provided to all the participants who have 80% attendance and score 60% in the quiz conducted at the end of the course.

To,
The Principal
Dr. Ambedkar Institute of Technology
Bangalore.

18-7-2020

Through,
The Head of Department
Telecommunication Engineering
Dr. AIT.

Sir,

Subject: Webinar on 'Course Outcomes based on OBE' - Reg

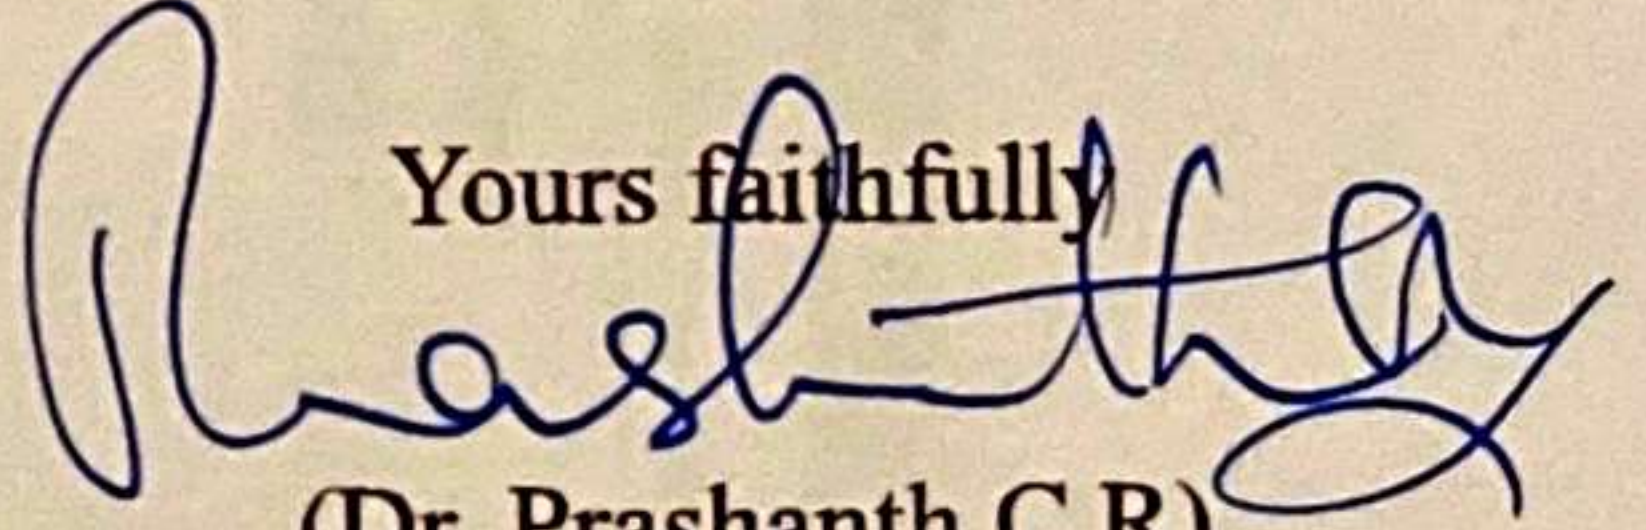

This is to bring to your kind notice that Telecommunication Engineering department is interested in organizing webinar on "Course Outcomes based on OBE" for the faculty members on Friday, 24th July 2020. The program is going to be for 60 – 90 minutes. This is useful for improving the curriculum design and accreditation purpose.

After attending the webinar, faculty members will be able to write the better COs, and refine the COs already written by the faculty member based on Revised Bloom's Taxonomy.

Therefore, I kindly request you to permit us to conduct the webinar on a suitable online platform.

Thanking you sir,

18 – 7 - 2020

Yours faithfully

(Dr. Prashanth C R)
