### **MESSAGE TO STUDENTS**

**Greetings everyone!** I hope everyone is well and making their way through these unprecedented times.

#### **IT'S OK**

YES, dear students it's ok to be less productive during this time. Hence I am here to support you and give you the complete support from institution's end, and request you all to attend the exams and be academically active.

It's been the year without the fresher's party, college fest, sports day, industry visits, offline workshops, seminars, conferences and foreign trips and farewell parties.

The classrooms are empty, the canteen has been closed, parking lots are unfilled, and rock garden and MTR space are vacant. Boys and girls hostel is barely running.

We have seen a drastic change since January 2019 and it's almost been 2 years. I understand the pain and sufferings our student community and their family has gone through. We have no other option than accept it and move on in our lives.

Hence we never accepted the defeat and the whole team of teaching and non-teaching staff are working hard to make sure that there shouldn't be any lacuna in online teaching, organizing webinars or conducting the CIEs and exams.

**Dear students,**

- Focus on your studies. There is no substitute for education.
- As the condition may resume or continue, discuss with your faculties regarding any difficulties, but your communication with your fellow students and faculties should not halt.
- Have a routine which will motivate you from the boredom of staying home. Dedicate at least 6 hours during exams for your studies. Consider this disadvantage and convert it to your advantage.
- And yes digital detox is what you need to follow during this time of study. Be away from mobile phones and other gadgets which may distract you.
- Organize your study and priorities your work as per the situation. Celebrate your small success. Have a clear communication with your mentors regarding academics.
- Participate in the webinars and other programs organized by the department.
- Online teaching has become a part of the life for both the students and faculties. Let's accept and welcome this change with whole heart and transform ourselves so that learning should never get affected.
- Stay healthy, use the precautions and get vaccinated with two doses.
- Success is not something easily achieved. So, work hard of it and later on enjoy the rewards. **Always remember giving up is a weakness.**

**Wish you all the best.**
